Arauco TruChoice Jesso Primer

Jesso or clay coat is a type of primer, which covers the moulding with a smooth plaster like surface coating.

The mix or batch which is applied to the surface is a blend of paints, primers, plaster and oils which act much like the “mud mix” a contractor uses on a plaster wall.

The Jesso coating is applied by passing the moulding under a waterfall of the liquid mix primer and then sent through a die cast profile, which produces the consistent skim coating on the profile. The moulding is then left to dry and packaged for delivery.

The benefits of Jesso are the moulding is ready for painting with little preparation and only one coat of quality paint is needed to cover the moulding. It is the teeth that hold the paint to the surface. Jesso also reduces any telegraphing of flaws or imperfections from the wood substrate.

Jesso is for interior use only and should be stored in a dry clean area. Not recommended for high moisture areas.

ROYAL Moulding

Features and Benefits:

- Lifetime Never Rot® Warranty
- 100% Cellular Vinyl PVC®
- Ready to install
- Low maintenance
- Moisture and termite proof material
- Install below grade or direct to masonry
- Does not promote mold or mildew
- High energy efficiency
